

## LA MANCHA COMMITS TO INVEST US\$69 MILLION IN G-MINING VENTURES TO FUND CONSTRUCTION OF THE TOCANTINZINHO GOLD PROJECT IN BRAZIL

**Luxembourg, 18 July 2022** - La Mancha Fund SCSp (“La Mancha” or the “Fund”), a Luxembourg-based fund advised by La Mancha Capital Advisory LLP (“LMCA”), is pleased to announce its wholly owned subsidiary has entered an agreement to invest approx. US\$69 million in G Mining Ventures Corp. (“G Mining” - TSXV: GMIN). The investment will assist G Mining to finance the development and construction of its Tocantinzinho Gold Project (“TZ”) located in the Para State in Brazil.

As La Mancha’s first gold investment in the Americas, this marks a positive step towards fulfilling LMCA’s objective of diversifying the Fund’s portfolio in multiple jurisdictions and production stages.

LMCA is pleased to support the G Mining management team, which has a demonstrated outstanding experience in mine construction and development through its affiliation with G Mining Services Corp., which has successfully built three mines in similar environments. As part of its investment thesis, LMCA believes that TZ is a solid foundation asset which should enable the G Mining team to ultimately expand G Mining into an intermediate-scale, multi-asset gold producer, in line with the strategy successfully backed by LMCA.

The investment is part of a broader US\$481 million funding package to finance the construction of TZ; provided by Franco-Nevada Corporation (“Franco-Nevada”) and Eldorado Gold Corporation (“Eldorado Gold”) alongside La Mancha. This commitment highlights the confidence of top-tier mining institutions in the strength of the TZ project and trust in the capabilities of the G Mining team. La Mancha’s investment will be completed in two tranches, with the first tranche of US\$51 million closing in July 2022. The second tranche, which should raise La Mancha’s stake from 19.9% to 25% of G Mining’s share capital, subject to approval by G Mining shareholders pursuant to the policies of the TSX-V, is expected to close in the third quarter of 2022.

**Karim Nasr, Managing Partner of LMCA, commented:**

*“We are very impressed by the strength of the G Mining management team, with whom we look forward to working closely and supportively. We believe that Tocantinzinho stands out*

*as a high-quality foundation asset which, when in production, should support the company's growth ambitions to develop into an intermediate gold producer.*

*A holding in G Mining fits well with our long-term strategy for the Fund of supporting outstanding management teams to develop and grow their asset base and create value organically and inorganically"*
